

**Do you want to feel the thrill of creating an operating device with your own hands?**

**Do you want to be part of a dedicated and powerful team whose declared goal is the construction of a novel experiment for fundamental research in physics?**

**Do you want to spend time in top level research groups in Germany, UK or France?**

**Please contact Prof. Philippe Courteille, Universidade de São Paulo, Instituto de Física de São Carlos, Grupo de Óptica, [philippe.courteille@ifsc.usp.br](mailto:philippe.courteille@ifsc.usp.br)**

**Start your PhD or master thesis in atom and quantum optics with ultracold gases:**

- a. Metrology at its limits with laser clocks**
- b. Scattering of light as a collective phenomenon**
- c. Photonic band structure of optical lattices**
